U.S. Department of Transportation Federal Aviation Administration

Operations Specifications

A002 . Definitions and Abbreviations

**HQ Control:** 02/11/2016 **HQ Revision:** 05c

Unless otherwise defined in these operations specifications, all words, phrases, definitions, and abbreviations have identical meanings to those used in 14 CFR and 49 U.S.C., as cited in Public Law 103-272, as amended. Additionally, the definitions listed below are applicable to operations conducted in accordance with these operations specifications.

**BASA** The Bilateral Aviation Safety Agreement (BASA) is an executive

agreement concluded between the United States and a foreign country

for the purpose of promoting aviation safety; also known as an

Agreement for the Promotion of Aviation Safety.

**Certificate Holder** In these operations specifications, the term "certificate holder" means

the holder of the repair station certificate described in these operations specifications in Part A paragraph A001 and any of its officers, employees, or agents used in the conduct of operations under this

certificate.

**CFR** Code of Federal Regulations

Class rating As used with respect to the certification, ratings, privileges, and

limitation of aircraft within a category having similar operating

characteristics.

**EASA** European Aviation Safety Agency

EASA Accountable

Manager

The manager who has corporate authority for ensuring that all maintenance required by the customer can be financed and carried out

to the standard required by the EASA full-member Authority.

**EU** European Union

**Exemption** An authorization that permits an alternate means of compliance with a

specific CFR. The exemption must meet the procedural requirements

of 14 CFR Part 11.

**FOCA** Federal Office of Civil Aviation

FAA Accountable

Manager

A person designated by the certificated repair station who is responsible for and has authority over all repair station operations that

are conducted under 14 CFR Part 145, including ensuring that the repair station's personnel follow the regulations and serving as the

primary contact with the FAA.

**Geographic** An approval provided to a repair station located outside the United

| J.S. Department of Transportation Federal Aviation Administration | Operations Specifications   |
|---|---|
| Authorization   | States to perform maintenance support under contract for a U.S. air carrier (or an operator of U.S registered aircraft under 14 CFR Part 129) at a location other than the repair station facility. A geographic authorization is issued by the FAA to respond to a U.S. air carrier's or Part 129 foreign operator's need for maintenance at a station where the frequency and scope of that maintenance does not warrant permanently staffing and equipping the station for its accomplishment. |
| Limited Rating  | A rating issued to repair stations for the performance of maintenance on particular makes and models of airframes, powerplants, propellers, radios, instruments, accessories, and/or parts.   |
| Limited Ratings -<br>Specialized Services                         | Rating issued for a special maintenance function when the function is performed in accordance with a specification approved by the Administrator.   |
| Line Maintenance  | Any unscheduled maintenance resulting from unforeseen events, or scheduled checks where certain servicing and/or inspections do not require specialized training, equipment, or facilities.   |
| MAG   | The Maintenance Annex Guidance (MAG) defines the process that the FAA and EASA undertake in the inspection, findings of compliance certification, and monitoring of repair stations, as well as their joint cooperation in quality assurance and standardization activities in support of the Agreement, Annex 2, Maintenance.  |
| Maintenance   | The inspection, overhaul, repair, preservation, and replacement of parts, but excludes preventive maintenance.  |
| U.S./EU Aviation<br>Safety Agreement,<br>Annex 2,<br>Maintenance  | Annex 2 covers the reciprocal acceptance of findings of compliance, approvals, documentation and technical assistance regarding approvals and the monitoring of repair stations/maintenance organizations.  |
| MIP   | Maintenance Implementation Procedures (MIP) are procedures for implementing the provisions of a BASA that apply to maintenance.   |
| МОЕ   | A maintenance organization exposition (MOE) pertains to EASA member countries that use an MOE in place of a Repair Station Manual (RSM) and a Quality Control Manual (QCM).   |
| Preventive<br>Maintenance   | As defined in 14 CFR part 1 and part 43 appendix A, subparagraph (c).   |
| QCM   | Quality Control Manual  |
| Repair Station located in the United States                       | A certificated repair station located in the United States.   |

A004 . Summary of Special Authorizations and Limitations

**HQ Control:** 09/23/1998 **HQ Revision:** 010

#### a. The certificate holder, in accordance with the reference paragraphs, is authorized to:

|   | Reference<br>Paragraphs |
|---|-------------------------|
| Conduct operations choosing to have an antidrug and alcohol misuse prevention program.  | A449                    |
| Perform work, excluding continuous operations, at additional locations other than at its primary Fixed Location.  | D100                    |
| Perform line maintenance for cert. holders conducting operations under Parts 121 and 135 and for foreign carriers/persons operating non-U.S. registered aircraft in common carriage under Part 129, apart from D100 which authorizes that work away from station. | D107                    |

#### b. The certificate holder is not authorized and shall not:

| Use Exemptions.  | Reference<br>Paragraphs<br>A005 |
|--|---------------------------------|
| Use an approved electronic recordkeeping system, electronic/digital signature, and/or electronic media.                | A025                            |
| Perform maintenance with EASA ratings where the scope of work is authorized by a BASA/MAG (U.SEU), MIP/MaG (U.SSwiss). | A060                            |
| Perform work, including continuous operations, at additional locations other than at its primary fixed location.       | A101                            |
| Perform maintenance in accordance with foreign repair station geographic authorizations.                               | B050                            |

Operations Specifications

#### A449. Antidrug and Alcohol Misuse Prevention Program

HQ Control: 07/17/2009 HQ Revision: 00a

- a. The Part 145 repair station certificate holder has elected to implement an Antidrug and Alcohol Misuse Prevention Program, because the certificate holder performs safety-sensitive functions for a 14 CFR Part 121, and 135 certificate holder and/or for a 14 CFR Part 91 operator conducting operations under Section 91.147.
- b. The certificate holder certifies that it will comply with the requirements of 14 CFR Part 120 and 49 CFR Part 40 for its Antidrug and Alcohol Misuse Prevention Program.
- c. Antidrug and Alcohol Misuse Prevention Program records are maintained and available for inspection by the FAA's Drug Abatement Compliance and Enforcement Inspectors at the location listed in Table 1 below:

Table 1

|                   | Location & Telephone of Antidrug and Alcohol Misuse<br>Prevention Program Records: |
|-------------------|--|
| Telephone Number: | A1 (205) 326-3100  |
| Address:          | 505 20th Street North  |
| Address:          |  |
| City:             | Birmingham   |
| State:            | AL   |
| Zip code:         | 35203  |

#### d. Limitations and Provisions.

- (1) Antidrug and Alcohol Misuse Prevention Program inspections and enforcement activity will be conducted by the Drug Abatement Division. Questions regarding these programs should be directed to the Drug Abatement Division.
- (2) The certificate holder is responsible for updating this operations specification when any of the following changes occur:
  - (a) Location or phone number where the Antidrug and Alcohol Misuse Prevention Program Records are kept.
  - (b) If the certificate holder's number of safety-sensitive employees goes to 50 and above, or falls below 50 safety-sensitive employees.
- (3) The certificate holder with 50 or more employees performing a safety-sensitive function on January 1 of the calendar year must submit an annual report to the Drug Abatement Division of the FAA.
- (4) The certificate holder with fewer than 50 employees performing a safety-sensitive function on January 1 of any calendar year must submit an annual report upon request of the Administrator, as specified in the regulations.
